InfoValue SuiteTV™ Showcasing Advanced IPTV Healthcare Technology at HIMSS 2008

InfoValue Computing, Inc. (InfoValue), experts in providing innovative, high-performance video streaming platforms and solutions, will be showcasing newly advanced InfoValue SuiteTV™ IPTV technology for Healthcare at HIMSS 2008 at the InfoValue booth #2574.

Elmsford, NY (PRWEB) February 26, 2008 -- InfoValue Computing, Inc. (InfoValue), experts in providing innovative, high-performance video streaming platforms and solutions, will be showcasing newly advanced InfoValue SuiteTV™ IPTV technology for Healthcare at HIMSS 2008 at the InfoValue booth #2574.

"InfoValue SuiteTV for Healthcare is a targeted and advanced IP-based technology for patient entertainment and education. Healthcare providers are realizing the value of IP-based systems including HD IPTV and highly interactive and personalized patient content," said Aubrey Flanagan, vice president of business development and solutions at InfoValue.

"Demonstrations at HIMSS will feature next-generation InfoValue SuiteTV technology, which has evolved into a highly advanced IPTV solution that provides not only fully-featured VOD patient services, but IP-based applications for interactive patient education and staff training, as well."

InfoValue SuiteTV for Healthcare is an advanced digital video and information solution tailored specifically for the healthcare industry. Utilizing the latest IPTV technology, InfoValue SuiteTV offers personalized patient services ranging from high-quality HDTV entertainment and education to network-based personal video recording (nPVR) and time-shifted television (TSTV).

By leveraging the award-winning InfoValue QuickVideo™ platform, InfoValue SuiteTV can expand to accommodate a converged network of video, voice, and data over a shared IP infrastructure -- for various patient education, staff training, and enhanced operational functions that simultaneously generate

potential new revenues, improve patient satisfaction, and reduce operational expenses.
