WiMAX High Quality Mobile H.264 IPTV Deployment by InfoValue

WiMAX customers use InfoValue IPTV services to view high quality H.264 live TV channels and video-on-demand content on their laptop PCs, 3G phones, and other handheld devices anywhere and anytime within WiMAX coverage area.

Elmsford, NY (PRWEB) December 25, 2009 -- InfoValue Computing, Inc. (InfoValue), experts in providing innovative, high-performance IPTV platforms and solutions, today announced its IPTV deployment at a brand new WiMAX infrastructure in Asia Pacific. The installation is powered by InfoValue QuickVideo IPTV platform and provides high-quality live TV channels and video-on-demand content to WiMAX mobile customers.

WiMAX customers use InfoValue IPTV services to view high quality H.264 live TV channels and video-on-demand content on their laptop PCs, 3G phones, and other handheld devices anywhere and anytime within WiMAX coverage area. Customers can watch live TV programs in fast moving cars crossing multiple signal towers without any interruption or quality degradation. Customers can watch video-on-demand content with full interactivity, including fast forward and rewind.

“InfoValue IPTV solution empowers WiMAX service providers to offer leading edge IPTV services to their customers in a way that truly helps them build premium quality and increase customer loyalty,” said Monsong Chen, CEO of InfoValue. “We are excited about this deployment as it turns the future vision into today’s experience.”

InfoValue QuickVideo is a feature-rich, reliable and scalable IPTV platform for large scale deployments. InfoValue QuickVideo offers comprehensive powerful features, ranging from high-quality HDTV channels, video-on-demand content, to network-based personal video recording (nPVR) and

time-shifted television (TSTV). InfoValue QuickVideo is uniquely positioned to partner with WiMAX to offer premium mobile IPTV services to simultaneously generate new revenues, increase customer base, and reduce operational expenses.

Founded in 1994 and experts in providing comprehensive IPTV platforms and solutions, InfoValue is recognized for innovations and advances in IPTV technology that has set the pace in performance, scalability and intelligence. InfoValue QuickVideo™ IPTV platform is based on a standards-compliant, open architecture that is optimized with innovative, patented technologies. InfoValue QuickVideo, which is currently being used by telecommunication carriers, corporations, governments, educational institutions, hospitality providers, and broadcasters around the world, offers interactive video-on-demand and video multicast capabilities, as well as integrated video indexing, distributed video caching, server clustering, and video service management capabilities. InfoValue delivers turnkey IPTV solutions for specific industries, including InfoValue SuiteTV for hospitality, InfoValue BizTV for training and communications, and InfoValue NextGenTV for residential. InfoValue's corporate headquarters is located at 4 Westchester Plaza, Elmsford, NY 10523.
